

Growth
with
Goodness

Growth, the way it is meant to be.

Growth, to us, isn't about the businesses we're involved in. Growth is about the real impact we can create. It's about the lives we can touch, the communities we can nourish, the future we can inspire. With our sheer size of operations, we have been able to reach out to the remotest of geographies with ease. Be it power transmission or solar energy generation or agri logistics, we go for large scale executions that benefits millions of Indians. We are proud of this quality of our operations, which we have consciously extended beyond our businesses, to impact healthcare, education, employment generation, and creation of sustainable livelihoods for the communities that deserve them. It is the belief that growth can lead to goodness, which inspires us and drives us.

Not just India's largest integrated organisation, India's largest goodness creators.

Racing ahead of others can surely reserve the apex seat, but how far will it take us is a question that keeps surfacing in our retrospection. We believe that the Adani Group is not in the business of Resources, Logistics, Energy and Agri, rather it strives to transform lives by creating opportunities for employment and a sustainable livelihood using our business as the medium to attain these goals of goodness. For us, the title of the largest integrated conglomerate doesn't ring a bell; the day we come to be known as the largest changemakers is the day we will achieve our purpose, our philosophy and our vision of 'Nation Building'. We want our achievements to become the beacon of goodness, moving lives, bridging oceans and bringing the world closer to millions. We believe our efforts, unless they enlighten lives, are futile.

Headquartered in Ahmedabad, India, the group has operations across the world and owes its success and leadership position to its core philosophy of **Growth with Goodness**.

A quick glance

Adani Group's performance for the financial year 19-20. Our diversified businesses have been working round the clock to meet our core objective, that is of Nation Building.

Workforce	16,000+	Renewable Power	2.54 GW
Solar Manufacturing	1.5 GW	Cargo Handled	223 MMT
City Gas Distribution	582 MMSCM	Transmission	11576 CKM
Agri Fresh	20,000 MT	Edible Oil	19.2% Market Share
Thermal Power Generation	12.41 <small>excluding ATLS 500 MW</small>	Realty	13.7 MN SQ FT
NBFC	21,500 Customers	Natural Resources	78.7 MMT
Integrated Resource Management	15.5 MMT		

*As on March 2020

Ports and Logistics | Power | Transmission | Renewables | Solar Cell and Module Manufacturing | Natural Resources | Agri Logistics | Edible Oil Gas Distribution | Real Estate | NBFC | Aerospace and Defence

To bring out the goodness there is in the world, it is best to start with self. Our values and culture define this goodness.

Vision

To be a world class leader in businesses that enrich lives and contribute to nations in building infrastructure through sustainable value creation.

Group values

Courage

We shall embrace new ideas and business

Trust

We shall believe in our employees and other stakeholders

Commitment

We shall stand by our promises and adhere to high standards of business

Culture

P= Passion

R= Results

I= Integration

D= Dedication

E= Entrepreneurship

The growth story, narrated by the nation.

When a company starts as a trading firm dating back to the year 1988, an array of unending possibilities queue up at the horizon. It takes a visionary to commence on the path which leads to collective goodness of both the business and the communities that it serves. The journey of Adani is one such growth story, where the end of every chapter, is the beginning of a new India, the story of goodness.

2020

- Forays into airports, wins mandate to operate 6 airports
- Total partners with Adani Renewables, becomes 50:50 partner in operational solar business of 2148 MW
- Joins with Total to create India's premier Integrated Gas Utility
- Successfully placed seven bonds in the international markets, 4.26 bn USD
- Renewables touches 2.5 GWs of operational clean and green energy

2019

- Enters data business with the launch of world's first renewable-powered data hub in Vishakhapatnam.
- Becomes 1st Indian port operator to handle 200 MMT cargo movement
- Qatar Investment Authority invests INR 3,200 Crore in Adani Electricity Mumbai Limited
- Partners with US-based digital realty to build India Data Center Infrastructure
- Rugby Run solar farm in Australia becomes operational
- Signs MOU with ADNOC, BASF and Borealis for chemical production complex in Mundra

2018

- Takes over R-Infra's Mumbai electricity
- Adani Renewables gets listed in National Stock Exchange
- Inaugurates India's first private UAV manufacturing facility
- Adani Gas gets listed, becomes the largest private city gas distribution player

2017

- Becomes one of the largest solar power developer with portfolio of 2GW
- Forms JV with France's CMA CGM to operate Container Terminal at Mundra Port
- Commissions solar manufacturing unit of 1.2 GW in Mundra

2016

- Commissions one of the largest solar power plant of the world with a capacity of 648 MW at Kamuthi, TN

2014

- Becomes the largest private thermal power generator with 9280 MW

2013

- Mundra Port becomes No. 1 private port in India

2012

- Commissioned India's 1st ever pvt sector HVDC transmission line

2011

- Dahej Port in India becomes operational

2010

- Mundra Port awarded the Best Private Port for the third consecutive year

2009

- Adani Power listed in National Stock Exchange

2007

- Adani ports and logistics listed in National Stock Exchange

2005

- Commences 1st CNG station, starts in Vadodara followed by Ahmedabad

2002

- First SPM and crude oil storage terminal work commenced

2000

- Adani Wilmar, a joint venture in edible oil refining, formed

1998

- Becomes Top Net Foreign Exchange Earner of the country and the largest private sector superstar trading house in India

1996

- Inception of Adani Foundation

1995

- Expands into port business; starts construction at Mundra

1994

- Adani Exports gets listed in stock exchange

1988

- Starts as a commodity trading firm

Adani Green Energy Ltd.

An environment free from carbon emissions, an environment where every child can grow up breathing pollution-free air - that is the environment we dream to create and have, to a certain extent, managed to enrich lives with our renewable energy plants. Adani Renewables (Adani Green Energy Limited) is one of the largest renewable energy companies in India, with a pioneering effort to help India's transition to renewable power generation. We develop, build, own, operate and maintain utility scale grid connected solar and wind projects. The electricity produced is supplied to central and state government entities and government backed corporations. AGEL has a portfolio of 31 commissioned, 14 under construction projects, contributing substantially to narrating India's goodness story.

Adani Green Energy Ltd.

Solar Energy

Nearly half a decade ago, we were the fastest of the starting blocks having set up the largest solar power plant then in the world at Kamuthi in Tamil Nadu. AGEL's pursuit of continuing to grow our renewable portfolio has been second to none and we are probably driving one of the fastest ever de-carbonization programs given our existing footprints and robust pipeline. Our vision is to become the world's largest solar power company by 2025 and largest renewable power company by 2030. Our existing portfolio of renewable power generating assets stands at over 2.5 GW which is expected to go over double by 2022 and further up to 15 GW by 2025 with the implementation of 3.5 GW under construction capacity.

The Adani Group has committed to investing over 70% of its budgeted Capex of the energy vertical into clean energy and energy-efficient systems. As a testimony to our commitment, our renewable power generation capacity saw a 30% rise to 2,545 MW in FY20, while total electricity supplied jumped 12.7% to 4,373 million units (MU) during the period under review. Another benchmark established during the year was the French oil major Total SA's investment to acquire a 50% stake in AGEL's operational solar business. Total SA will own 50% of the company that operates 2,148 MW solar projects owned by AGEL.

Wind Energy

As India's largest independent renewable energy producer, we are well positioned to seize growth opportunities. Our intellectual capital in the form of expertise in operations and maintenance, relationships across the energy sector and regulatory know-how plays an important role in creating value for our stakeholders.

Our USPs

Deep know-how of Regulatory landscape

Well established relationship across energy ecosystem

Geography spread

Timely execution of large or complex assets

Operational expertise

Competitive project cost

An aerial photograph showing a large port area with several container ships docked at piers. In the foreground, there is a dense, lush green mangrove forest. The sky is clear and blue. The text 'Adani Ports and Special Economic Zone Ltd.' is overlaid on the left side of the image.

Adani Ports and Special Economic Zone Ltd.

Everyone has a growth story. But, when the story results in the upliftment of the lives of farmers and their families, or small-scale businessmen and their customers, the nation and its future, it advances into a goodness story. Adani Ports and Special Economic Zone Ltd is bridging India to the world, erasing all limitations of geographies with faster, more efficient movements.

An aerial photograph of a massive container port. In the foreground, a large green container ship with 'EVERGREEN' written on its side is docked at a pier. The pier is lined with numerous blue gantry cranes. The port area is filled with stacks of colorful shipping containers in various colors like red, blue, yellow, and green. In the background, more ships are docked at other piers, and the port extends into the sea. The sky is overcast.

Ports

Adani Ports and Special Economic Zone Limited (APSEZ) is the largest commercial port operator in India contributing to the country's growing trade. Its spread across 10 domestic ports in six maritime states – Gujarat, Goa, Kerala, Andhra Pradesh, Tamil Nadu, and Odisha – lend it a national presence. The port facilities are equipped with the latest cargo-handling infrastructure which is not only best-in-class, but also capable of handling the largest vessels calling at Indian shores. Our ports are equipped to handle diverse cargos – dry cargo, liquid cargo, crude and containers.

Logistics

Adani Logistics Ltd, a subsidiary of APSEZ is a pan India end-to-end logistics services provider – asset and service based – across Container, Bulk, Break-bulk, Chemical, Auto and Liquid industries. It operates three logistics parks located at Patli in Haryana, Kila-Raipur in Punjab and Kishangarh in Rajasthan. With the ability to handle 600,000 twenty foot equivalent units (TEUs) annually, the Adani logistics business is growing at a rapid pace.

Agri Logistics

Those who feed us deserve their fair share. We, at Adani ensure that farmers get their due credit for every drop of sweat they've shed in generating the best quality produce for the nation. We rely on our scale to bring about this goodness. Adani Agri Logistics is a pioneer in bulk handling, storage and transportation (distribution) of food grains, and in providing an end-to-end bulk supply chain solution to Food Corporation of India and various state governments. The company commissioned India's first modern grain storage infrastructure for Food Corporation of India in 2007. It commissioned grain silos in Moga (Punjab) and Kaithal (Haryana) to store grains, and established receiving silos in Mumbai, Chennai, Bengaluru, Kolkata and Coimbatore, cities connected through Adani's dedicated railway rakes.

SEZ

Spanning across an area of 15,000 hectares and located on India's vibrant west coast in the industrialised and investor-friendly state of Gujarat, is the Mundra Economic Hub, the gateway for Indian exports and imports. It is India's largest port based multi-product manufacturing zone.

Adani Transmission Ltd.

Transmission

The aim of goodness is not attained by ensuring unlimited availability of power but by generating happiness and creating sustainable living for people affected by it, while maintaining a greener environment for generations to come. Adani Transmission Limited (ATL), is one of the largest private sector power transmission companies in India with a presence across the western and northern regions of India that has been working towards helping people realise their dreams no matter what time of the day it be. We primarily aim at addressing the vast potential in India's transmission sector and our ambitious target is to set up 20,000 circuit kms of transmission lines by 2022. We currently operate more than 11,576 CKTKM circuit kms of transmission lines and around 18,330 MVA of power transformation capacity. We have invested in the latest technologies resulting in the highest network availability of over 99.76% in the country, which corresponds to the best global standards.

Electricity

A brighter future or a hopeful ambition, the path towards empowerment or yet another lit kitchen is when the fruits of growth are sweeter than growth itself and goodness fuels the journey forward. Adani Electricity Mumbai Ltd (AEML), a majority owned subsidiary of Adani Transmission Ltd is into Power Generation, Transmission and Retail Electricity Distribution. It serves over 3 million plus consumers spread across 400 sq. kms in Mumbai and its suburbs with 99.99% reliability, one among the highest in the country. In the maximum city, dreams run the show, and for millions of Mumbaikars, the fast-paced life that is contrived to realise them, is powered by an uninterrupted supply of electricity. Adani Electricity meets close to 2,000 MW of power demand as Mumbai's largest and the most efficient power distribution network. It provides world-class customer care services with the help of advanced technologies. Adani Electricity plans to expand its presence in newer geographies in pursuit of India's vision of 'Power for All'.

Adani Gas Ltd.

Life feels no less than a celebration when one can return abode to some piping hot comfort food after a long day at work. We make this joy possible with our network of over 7000 kms of pipeline distributing gas to kitchens across the country. With over 1480 industrial units, over 4,35,000 households, over 2,900 commercial units and more than 100 CNG stations, Adani Gas Ltd is the largest private sector CGD player in India with significant growth opportunities. A focused 'Pure Play Gas Marketing and Distribution' entity, with its expanding network of pipeline promises to fuel the growing aspirations of the nation.

Adani Power Ltd.

What more can power do than light up houses? It can brighten the future, not just of individuals but of communities at large, thereby creating a growth story ramifying throughout the country, one smile at a time.

We, at Adani Power remain at the forefront of addressing the nation's increasing demand for energy. For us, building a sustainable future isn't just about achieving business objectives, but more about the impact we can create and the lives we can light up.

Adani's thermal power portfolio comprises 12,410 MW across four plants at Mundra, Tiroda, Kawai, Udipi, Raikheda and Raigarh. This makes the company India's largest private sector power player. The power generated here is witnessing businesses grow, literacy rise and livelihoods flourish. For the world's first company capable to set up a coal-based super critical thermal power project registered under Clean Development Mechanism (CDM) of Kyoto protocol, this is just the beginning in the continuing journey of goodness.

A photograph of an elderly man with a white beard and a blue turban, wearing a white button-down shirt. He is standing in front of a red tractor in a field. The tractor has 'Adani' written on its side. The background is a blurred field of golden-brown crops under a bright sky.

Adani Enterprises Ltd.

Growth is entitled to change but the goodness that it shapes, is everlasting.

Adani Enterprises Limited, the flagship entity of the Adani Group, by operating as the fastest growing, diversified group with business interests across natural resources, agri storage infrastructure and services, edible oil, defence and aerospace, and solar module manufacturing, is ensuring the impact trickles down to the remotest corners of the country. When electricity reaches every household through timely availability of resources, access to basic necessities is enjoyed the way it is meant to be and a farmer is able to feed his family heartily only because he gets his fair share for delivering quality food grains, which is stored and distributed in the most efficient manner while providing a healthy cooking medium. For us, the nation is brimming with opportunities that can help bring about a change. In doing so, we contribute to the creation of a better world.

Solar Manufacturing

Contributing to the nation's journey of becoming self-reliant in terms of Energy Security, we ventured into what is known to be the pathway to a solar revolution – Solar, in 2017. Adani Solar (Mundra Solar PV Ltd.) our PV manufacturing and EPC arm, India's first and largest vertically integrated solar company that offer products along with services across the spectrum of photovoltaics manufacturing and upto project development.

The state-of-the-art manufacturing facility with multi-level infrastructure will be optimized for scaling up to 3.5 GW of solar cells and modules under a single roof. The unit is located at one of the world's largest Special Economic Zones at Mundra, Gujarat and plays host to the entire solar manufacturing ecosystem from cell to modules, including ancillaries and supporting utilities. With projects over 250 MW commissioned and over 500 MW under execution, it is also India's fastest growing Solar EPC Company.

The cutting-edge technologies, with machines, equipment sourced for the best in class partners, help us achieve cost leadership, scale of operations and product reliability standards exceeding global benchmarks.

Adani Wilmar

Adani Wilmar Limited (AWL) is a joint venture incorporated in January 1999 between Adani Group - the leaders in private infrastructure and Wilmar International Limited - Singapore, Asia's leading Agri business group. It is one of the fastest growing food FMCG companies in India. The Company has the largest range of edible oils spanning across the categories of Soya, Sun, Mustard, Rice Bran, Groundnut, Cottonseed and the revolutionary Vivo oil. The company has extended its basket of offering with the introduction of soap – Alife. Besides oil, AWL has also forayed into packed Basmati Rice, Pulses, Soya Chunks, Besan and Wheat Flour. The product portfolio of Adani Wilmar spans under various brands along with their flagship brand – Fortune. Adani Wilmar Limited also caters to institutional demand through its industry essential range which includes bulk packs of consumer essentials as well as Lauric & Bakery fats, Castor Oil derivatives, Oleo chemicals and Soya value added products.

Agri Fresh

Adani Agri Fresh established its presence in the horticulture sector through world-class packaging operations and storage facilities. These services ensure selection of only the highest grade of horticulture products for storage and consumption. It pioneered the controlled atmosphere storage technology for apples, transforming the apple growing and storage ecosystem of Himachal Pradesh, while creating a popular 'Farm-Pik' brand. This business model has helped apple farmers across the state in creating for themselves a flourishing livelihood.

Natural Resources

Electricity is an essential tool to empower humanity, especially for the country like India where per capita power consumption is much lower than that of comparable nations. While progressive enterprises such as the Adani Group have taken a leap in promoting environment friendly solar and wind power, fossil fuel continue to dominate country's energy mix.

At Adani Enterprises Limited, we bridge the gap between demand and supply of coal through a combination of imports and responsible mining. Besides contributing to the domestic production with the help of environment friendly practices, we have also developed a strong supplier base in Indonesia, South Africa, Australia, USA and Russia among other major coal producing nations of the world.

Its success has enthused many more mining lease holders to embrace this progressive model to produce other minerals and metals efficiently and cost effectively. We continue to explore new opportunities with this emerging area and have diversified into production of iron ore to begin with.

Our vision of achieving energy security for the nation is gradually transforming lives of local stakeholders across the nooks and corners of the country.

Integrated Resource Management

To meet the growing demands from expanding thermal power generation capacity, we ventured into resource management in 1999. Access to richer coal was an urgent need of an emerging economy to promote energy efficiency. Today, our presence in the entire value chain, including logistics, has enabled us to ensure supply of cost effective fuel to country's power sector and other energy intensive industries such as steel, cement and iron. Vast experience gained over the years and expertise of our committed team helps to create value for customers by providing end-to-end solutions.

Defence and Aerospace

India aspires to be amongst the top five nations of the world in defence and aerospace, by reducing its current dependence on military imports, by bolstering defence manufacturing, through indigenous private defence firms to ensure an advanced infrastructure that works in line with the real heroes of the nation and those who devote their lives in the line of defence.

Adani Defence and Aerospace leads Adani Group's foray into defence and aerospace manufacturing to play an instrumental role in helping transform India into a destination for world class defence and aerospace manufacturing, aligned to the Make in India initiative. Driven by our values of Commitment, Trust and Courage, we are enhancing India's defence and industrial capabilities and helping build a secure nation. We aim to achieve this by:

- Focusing on platforms and technologies of critical importance, to assert India's military competence, and help meet emerging security challenges at our borders
- Collaborating with committed global partners for transfer of technology and skills
- Helping develop and grow the dynamic MSMEs, which is critical for a sustainable ecosystem in India
- Focus on capabilities critical for true indigenisation including design, system integration, maintenance and upgrade in India

Airports

The Adani Group has forayed into the civil aviation sector by strategically acquiring Airport Development & Maintenance mandates throughout the country. This move is bolstered by the Group's desire to upgrade the existing airport infrastructure in India to best-in-class standards, thus offering customers the most definitive airport experience. Having bid for various Airports Authority of India (AAI) airports, AEL has emerged as the highest bidder for all six of them that had been put up for privatization:

**Ahmedabad | Trivandrum | Lucknow | Mangaluru
Guwahati | Jaipur**

Adani Realty

Your dream life lies beyond the carpet area of what you believe is possible.

Adani Realty is one of the youngest arms of India's top infrastructure and development conglomerate - Adani Group. With a commitment to getting India at par with the most advanced countries around the world, we have begun development in our most promising cities; integrating the finest design aesthetics with cutting edge construction technology.

As part of the Adani Group, we have a legacy of Trust and Excellence we live up to; a fact that has driven us to achieve a lot in a relatively short period of time. Adani Realty have been developing residential, commercial and social club projects of over 7 lac sqr mtr in aggregate in Ahmedabad, Mumbai, Pune & Gurugram. Our aim is to revolutionize real estate, keeping in mind the varied aspirations and lifestyles of new age India. Set apart by an abundance of land for development, meticulous planning, intelligent use of technology and the speed of execution, within a little over 10 years of our inception, we have delivered more than 13 lac sqr mtr of space to over 6000 families.

Our vision is perfectly encapsulated in our philosophy of The Good Life; in which we have conceptualised lifestyles inspired by your biggest dreams and closest relationships. We have been recognised as one of Asia's top 100 brands and are committed to becoming one of India's leading super brands in the realty sector.

Adani Capital

Adani Capital is the NBFC division of Indian multinational conglomerate, Adani Group. Set up in 2017, Adani Capital aims to position itself as a premium financial services firm in the country by fostering an inclusive entrepreneurial ecosystem.

Adani Capital aims to empower micro, small and medium entrepreneurs like farmers, transporters and small businessmen by providing them tailored financial solutions. The company aspires to implement industry best practices to bolster the micro, small and medium business segments in the country. It operates in the states of Gujarat, Maharashtra, Rajasthan and Karnataka.

Adani Capital offers specialized financial products like Farm Equipment Loans, Commercial Vehicle Loans, Supply Chain Finance, Business and Corporate Loans.

Adani Housing Finance

Adani Housing Finance is the affordable housing finance division of Indian multinational conglomerate, Adani Group. It envisions the attainment of the "Housing for All" objective for the citizens of India. Adani Housing Finance aims to bolster the affordable housing segment for home aspirants through easy financing solutions and simplified lending processes. It has operational presence in the states of Gujarat, Maharashtra and Rajasthan.

Apart from Home Loans, the company's product portfolio also comprises Loan Against Property for the purpose of business expansion and personal use.

Adani Renewables - Australia

Whoever we are and wherever we live, we're all human and we all want the power to better our lives. That's why Adani is focused on delivering an energy mix of thermal and renewable energy that can guarantee current demand and help create a positive future for everyone. In Australia, our Rugby Run solar farm is switched on and delivering 65MW of electricity, enough to power 23,000 Queensland homes every year. This is part of the Adani Group's growing global renewable energy production portfolio of approximately 2,500MW.

Abbot Point Terminal

Abbot Point Terminal is Australia's most northerly coal port. It is located north-west of Bowen in Queensland. Our customers are major mining companies in Queensland's Bowen Basin, one of the world's premier mining regions. Coal is exported from Abbot Point to Asia to generate affordable, reliable electricity and for steel-making and cement production. The terminal is owned and operated by Adani and has been operating safely, responsibly and efficiently for 35 years. Adani purchased the long-term lease of the terminal from the Queensland Government in 2011.

Carmichael Rail Network

The Carmichael Rail Network is a 200-km long multi-user railway that is being constructed in Central Queensland, Australia. The railway will connect the new Galilee Basin mining region with existing rail infrastructure and Adani's Abbot Point coal export terminal. Adani's Carmichael Mine will be the foundation customer for the railway. The railway has initial design capacity of 40 million tonnes per annum and capacity to expand.

Carmichael Mine

Adani is constructing the Carmichael Mine in the North Galilee Basin, more than 300-km from the Queensland coastline and approximately 160-kms north-west of Clermont in regional Queensland. The Carmichael Mine will produce 10 million tonnes of thermal coal per annum to meet the demand of coal for electricity generation in India and South-East Asia. The mine project is creating vital jobs and business opportunities for the communities of north and central Queensland.

Venturing into new avenues

- Data Center
- Roads, Metro, Rails
and Water

Data Center

As India's internet economy continues to be on a surge, as there is an increasing need to build requisite datacentre to ensure seamless uninterrupted data consumption and storage.

The growing smartphone subscribers with rising monthly mobile data traffic, coupled with rising broadband penetration and increasing digital transactions per year, will create an enormous need to collect, store, process and distribute data.

Adani Enterprises Ltd (AEL) is the only company with inherent capabilities to build Data centres across the country. At AEL, we are competitively placed with some key advantages, namely:

- Complete ownership of large land parcels across the country
- Project management capabilities and resources availability
- End-to-end power value chain (generation, transmission and distribution)
- Fiber connectivity and strong network connectivity
- Renewable Power generation to ensure sustainability
- Strong Policy advocacy credentials
- As a part of our initial plan, we intend to build Data Centers in NCR, Mumbai & Chennai

Roads, Metro and Rails

To continue our nation building efforts, we remain committed to build Infrastructure to boost India's socio-economic growth. With multiple Infrastructure businesses established across India, we leverage our expertise in project management to build synergies for Road, Metro & Rail Infrastructure development. Adani Group is confident about positioning itself as a dominant player in the Roads, Metro and Rail sector with its extensive experience of developing infrastructure for National Highways, Expressways, Tunnels, Metro-Rail, Railways.

Water

Water remains an integral part of sustainable development initiatives. With growing concerns about supply and availability of water resources, policy makers are focusing on infrastructure projects that aid its conservation. We propose to build new Sewage Treatment Plants (STPs) and rehabilitate existing STPs. Along with that, we also focus on opportunities in areas of Irrigation Infrastructure Development, Large Water Supply & Water Distribution Projects and Desalination Projects to produce potable water for general consumption or industrial use.

Adani Foundation

Goodness is not subject to sporadic appearances. It is a practise that ought to be ingrained in those who truly believe in it. We, at Adani, leave no stone unturned to bring happiness and livelihood at every step of our journey of Nation Building. The Adani Group invests about 2% of its total profit in various social initiatives through its CSR arm, Adani Foundation with an aim to lead the wave of goodness at grassroot levels. It exhibits the humane, compassionate and benevolent side of the company. Adani Foundation is touching more than 3.4 million lives in 2315 villages across 18 states through its work in Education, Community Health, Community Infrastructure Development and Sustainable Livelihood Development.

1. Education

Adani Vidya Mandir, Ahmedabad (AVMA) is the first cost-free school in India to receive NABET Accreditation by Quality Council of India, a benchmark in the field of education. Adani Public School, Mundra is now the first school in Kutch and Saurashtra region to receive the NABET Accreditation. Adani Vidya Mandirs in Ahmedabad, Bhadrashwar and Surguja are schools that provide cost-free education to about 2100 students annually. Adani Public School in Mundra, Adani Vidyalayas in Tirora and Kawai, Adani DAV Public School in Dhamra and Navchetan Vidyalaya in Hazira provide subsidised education to students across the country. Adani Foundation started special initiatives such as Gyanodyay for Digital learning, Utthan for strengthening fundamentals and Amchi Shala for reviving government schools in rural Maharashtra

2. Community Health

Adani Foundation firmly believes that ensuring and improving overall healthcare of the citizens can directly result in economic growth of the nation.

There are 12 nos. (11 in Mundra and 1 at Dhamra) rural clinics run at various locations provide timely services to around 30,000 patients annually, on an average. The foundation also operates Mobile Health Care Units (MHCU), providing on-the-spot medical assistance to the patients in regions where medical facility is not available. At present, 17 MHCUs across the nation attend to 3.73L treatments people annually, on an average.

Health Cards to Senior Citizens and Medical Insurance: The Vadiil Swasthya Yojana benefits senior citizens from

socio-economically marginalised sections. Senior citizens with family income of less than Rs. 2 lakh per annum are provided green cards to avail free healthcare services, while those with family income of more than Rs. 2 lakh per annum are given blue cards to avail healthcare services at the Adani Hospitals. Various health camps are organized at regular intervals which are seasonal/need-based to meet the specific needs of the community. About 51,000 patients are treated at the camps annually, on an average.

Gujarat Adani Institute of Medical Sciences (GAIMS) and G. K. General Hospital (GKGH): Gujarat Adani Institute of Medical Sciences (GAIMS) is first ever Public-Private-Partnership (PPP) endeavour between

Government of Gujarat and Adani Education & Research Foundation. GAIMS is the only Medical College and Multi-Specialty Modern District Hospital in Kutch District. At the moment, the GKGH has 750 bed strength capacity, 14 Operation Theatres, 58 bedded Intensive Care Unit (ICU), 1.5 Tesla MRI Machine, 16 slice CT Scan Machine and other required infrastructure facilities required for being a frontline modern multi-specialty district hospital.

3. Sustainable Livelihood Development

Adani Foundation aims at promoting growth and development of marginalised sections by promoting livelihood security. The programmes span from skilling to offering support in market linkages to creation of Self-Help groups to adoption of new and innovative techniques in crop production, animal husbandry and bringing alternate livelihood to fishermen. Not a focus area for intervention, we are bringing them towards alternate livelihood.

4. Community Infrastructure Development

Community infrastructure bears a direct impact on the standard of living and the micro economy of the community. Adani Foundation has worked towards improving the infrastructure in numerous rural and migrant populations.

Water Conservation -

The foundation has constructed 22 check dams, revived 360 farm ponds and deepened several streams across various geographies. This has helped boost the water storage capacity to 7,834,050 M³ and it has brought 18,200 acres of land under irrigation.

Adani Foundation has recharged total of 75 bore wells in 4 villages in Kutch district as a part of the project. It provides 85% of annual water requirement of a household and even irrigation in some cases.

Adani Foundation also completed 54 Rooftop Rainwater Harvesting projects in villages of Kutch and each project has a capacity of 10,000 liters of water storage.

Special Projects:

1. SuPoshan – SuPoshan is targeted towards breaking the cycle of anemia in women and malnourishment in children below the age of 5 years. SuPoshan Sanginis who are from the community ensure the right medical and social support, to encourage mothers to adopt a healthy lifestyle. SuPoshan is spread across 12 states in more than 3 lakh households.

2. Saksham – Saksham or Adani Skill Development Programme (ASDC) is a skilling programme that focuses on bridging the skill gap among the youth, make them employable and thus, contribute towards nation building. The programme is in line with the Government of India's Skill India Mission. Saksham has partnered with the National Skill Development Corporation (NSDC) and has trained more than 55000 plus young persons. Its innovative courses include simulator-based crane operation, 3D printing, and welding through Augmented Reality. Currently, there are more than 65 Saksham centres operational across eight states in India offering skill training in 45 trades.

3. Swachhagraha – The project aims at engaging people and bringing about change where people get involved to take action for 'Creating a culture of cleanliness'. Through this project we have reached out to 5,700 schools across 19 states and have more than 80,000 Swachhagraha dal members, spreading the message further to 26,50,000 students.

Programme focuses on four key themes, namely, Waste Management and Littering, Sanitation, Personal Hygiene and Toilet Etiquettes.

4. Udaan – With an objective to encourage young minds to develop an interest in all sorts of enterprises and to encourage them to dream big in life, Adani Foundation takes students on an exposure visit to their power plants and ports, where the students get an opportunity to experience the scale of our businesses. More than 3.48L students and teachers from 5200 institutions have participated in Project Udaan.

Safety and Environment

Safety

In the upliftment of people lies the growth of the country and in their happiness, thrives our impetus to do good. The Adani group has established an Occupational Health and Safety (OH&S) Policy and a Safety Manual and has also identified the legal requirements in the legal register, as well as in operation and maintenance activities ensuring that concerns of health and safety steer clear of our journey towards realising dreams. There is a Corporate Safety Group under the CEO's guidance, monitoring safety at all sites. In a nutshell, all possible safety precautions are being observed and taken into consideration to meet the global standards in safety management systems. Our sites go beyond statutory requirements to achieve continual improvement year after year. This effort has been recognised in the form of awards and accolades from many organisations and safety forums.

Environment

Helping India meet its energy needs while minimising the impact on the environment is a crucial challenge. Our environment protection initiatives aim to help curb the dangers of eroding landscapes and convert them into fertile, greener blankets of land. An exemplary achievement in this regard is the revival of the ecologically sensitive areas like Mundra, where we have conserved and extended mangrove afforestation. We were the first power company in India to use 'supercritical' technology to reduce CO₂ emissions, an initiative that won us the Clean Development Certification from the United Nations Framework Convention on Climate Change (UNFCCC). In addition, we operate one of the largest solar power projects in India. We are at the forefront when it comes to improving efficiency and reducing waste.
